

October is Co-op Month and we want to show our appreciation to our members!

We will be holding a drawing for a 1.7 liter Electric Kettle and registrations will be accepted through the entire month of October. To be eligible, complete the registration form found in *The Circuit* newsletter inserted with your bill. You can mail it along with your bill payment or bring it into the office (where we'll have extra forms.) The drawing will be held at 8:00 am on November 1st so be sure to turn in your registration before then.

Also, throughout the month of October we will be distributing an Ark Valley rain gauge to each member that comes into the office (while supplies last.)

**WE APPRECIATE YOU!**
